The right optional accessory for your application	
4.762-328	Push-on washing brush
4.762-284	Rotating washing brush with nylon bristles
4.762-288	Rotating washing brush with natural bristles
4.767-022	Dirt blaster nozzle, dramatically increasing cleaning power
2.640-355	Hard-surface cleaner FR 30 Me giving fast, uniform cleaning of floors and walls
2.640-482	Nozzle kit for hard-surface cleaner FR 30 Me
4.403-002	Extension coupling for high pressure hoses

Included with the machine	
6.391-238	Professional high-pressure hose 10 m, 250 bar, AVS-connection
6.391-417	Professional high-pressure hose 15 m, 250 bar, AVS-connection (UX model)
4.775-529	Extended trigger gun
4.760-665	Stainless steel spray lance 550 mm
4.775-191	Triple nozzle with pencil, fan and detergent jet settings.

## Accessories

Order no.	HDS 5/11 U	HDS 5/11 UX
Water flow rate (l/h)	450	450
Pump pressure (bar)	110	110
Connected load (kW)	2.2	2.2
Max temperature (°C)	80	80
Power supply (Ph/V/Hz)	1/240/50	1/240/50
Fuel tank (l)	6.4	6.5
Fuel consumption (kg/h)	2.7	2.7
Weight (kg)	68	70
Dimensions (L x W x H) (mm)	620 x 620 x 995	620 x 620 x 995

# New upright hot water high pressure cleaner

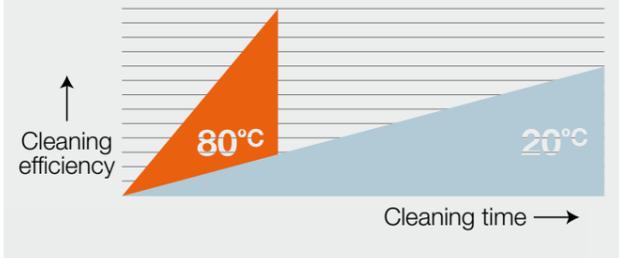

**PORTABLE  
 AFFORDABLE  
 CAPABLE  
 HDS 5/11 U**

# Portable performance. Kärcher's new upright hot water pressure cleaner - the HDS 5/11 U.

Kärcher - the inventor of the hot water pressure cleaner - introduces its first portable model, revolutionising hot water high pressure cleaning. Never before has cleaning with hot water been so simple and so convenient. The new HDS 5/11 U is designed to be as easy to use and transport as a Kärcher cold water pressure cleaner, but with the added cleaning performance that comes from using water heated to 80°C. With simple OFF-COLD-HOT operation, small footprint and typical Kärcher design and build quality, the 5/11 U is the perfect machine for light-medium duty cleaning tasks where time is of the essence. Just plug in, switch on and let the 80°C hot water shift the dirt.

Time is money. Save both with the extra efficiency of hot water.

Using hot water can reduce cleaning time by up to 40% and improve final results. This is because oil and grease stains emulsify and flow more easily when heated, making them easier and quicker to shift. Hot water also accelerates chemical processes, making detergents work more quickly. On top of all this, the object being cleaned will dry more quickly because it has been warmed by the hot water.

## Features and benefits

### 1. Effortless portability

- Large, robust wheels
- Innovative upright design
- Integrated tilting aid
- Lay-flat transportation, even in a normal estate car
- Hand holds to aid lifting and loading

### 2. Convenient ergonomics

- Optimally positioned handle
- Fuel tank designed for easy filling
- Hose reel (UX only)

### 3. High performance, low costs

- 80°C hot water
- Triple nozzle with three settings and up to 40% more cleaning power
- Super-efficient Kärcher burner technology

### 4. Simplicity and functionality

- OFF-COLD-HOT control
- Safety lock to prevent transportation spillages
- Optical fuel level indicator

### 5. Easy storage

- Upright design means small footprint
- Integrated hose drum with spray lance holder reduces set-up times (UX Model)
- Simple, practical cable hook

### 6. Professional quality

- Durable, proven pump set with brass cylinder head
- Fine debris filter
- Overheating prevention

## The right compact hot water pressure cleaner for you.
