

HDS-C

Static Pressure Cleaners.

The new range of HDS-C static pressure washers combine all the benefits of the mobile HDS pressure cleaners whilst housing them within a robust, ergonomic cabinet. This provides several advantages, including protection against the environment, vandalism and theft. There is also a lockable operation panel stopping unauthorised use.

Operation is straight forward. A single button operation switch enables the user to easily select the correct programme. During the cleaning process there is also a visual display that notifies the user of the current operating status. There are three different models in this range, all of which are ideal for the automotive market, hire companies and industry.

- Frost protection to -20°C.
- Single button operation.
- Automotive dosing of water softener.
- Electric token acceptor (optional).
- High-pressure lance and hose holder (optional).
- Lockable operation panel.
- Ergonomic design for long operating periods.
- Available in powder coated or stainless steel finish.
